

Fingerprinting with the Texas Rangers

Did you know that every person's fingerprint is unique? Even between twins! Your unique fingerprint is something that makes you You!

Because everyone's fingerprint is different, the Texas Rangers can use fingerprints left behind in a crime scene to identify the criminal.

There are many different kinds of fingerprint patterns. What kind of fingerprint do you have?

Common Finger Print Patterns

plain whorl

plain arch

tented arch

central pocket loop

double loop whorl

radial loop

ulnar loop

accidental whorl
